

ELECTRONIC INVOICE

COMMUNICATION OF SUPPLIER INVOICES TO THE STATE

Invoice Communication Portal

Invoice Communication Portal (PCF) is a simple and intuitive solution developed by Globalsoft CBSC to communicating supplier invoices to the state. Receive invoices from all suppliers that work with public entities i.e., water, electricity or internet suppliers. **PCF was developed for Municipalities and other Public Entities.**

Why do Public Entities need to join the Electronic Invoice?

Decree-Law No. 111-B / 2017, of August 31, came to regulate and standardize the use of electronic invoices within the scope of contracts with the Public Administration. As of January 1, 2021, state suppliers will be required by law to communicate invoices issued to public entities through an Invoice Communication Portal (PCF). This means that instead of sending the invoice in paper or PDF format via email, they should send it through the PCF.

Municipalities that trust the Invoice Communication Portal
